

IN COLLABORATION WITH PRESENTS

AFI - WISE

THE FUTURE IS HERE

WISEPRENEURS

AFI, since its inception, has supported high-potential social entrepreneurs through innovative solutions and well-planned interventions, igniting their minds to drive global change across verticals. It is our distinct pleasure to present the first-ever cohort of women social entrepreneurs who are on their scaling journeys to become the next impact unicorns.

NEHA KIRPAL
CO-FOUNDER, INNERHOUR

InnerHour platform provides seamless set of tools and services easily available on an app, where people from over 100 Indian cities can log on and get relevant content, self assessment, self help programmes for anxiety, depression, sleep, relationships etc. and speak to their network of 120 therapists in over 8 languages.

SHVETA RAINA
FOUNDER, TALERANG

Talerang provides industry-recognized certificate programs to students and professionals. Their courses incorporate assessments, self-paced and live learning, matching to mentors and effective jobs. It has segmented the market and launched products according to the gaps.

AKSHITA SACHDEVA
CO-FOUNDER, TRESTLE LABS

Trestle Labs innovation, Kibo, is an end-to-end solution for visually-impaired individuals, giving real time access across 22 global languages (12 Indian languages) through audio. Kibo comprises 3 products; Kibo lifestyle mobile app, XS device for education, desk digitized image and PDFs.

POOJA RAI
CO-FOUNDER & CEO,
ANTHILL CREATIONS

Anthill Creations aims to bring back play to children by mobilizing communities to build lighter, quicker and cheaper playscapes. They have also launched their own play-based indoor kits called "Play in Box" which makes it convenient for kids to learn and play without leaving homes.

JAHANVI JOSHI
CO-FOUNDER,
BLEETECH INNOVATIONS

Bleetech Innovations is creating a range of design and technology solutions for students with hearing impairments. BleeTV library, a digital platform has educational content exclusively for the hearing-impaired students in Indian Sign Language. Its library has more than 2,000 videos for academic and learning purposes. It also designs physical learning kits specially for students with hearing ailments.

DIMPLE PARMAR
CO-FOUNDER, ZENONCO.IO

ZenOnco.io is the World's First Integrative Oncology health tech platform making quality integrative oncology cancer care accessible to all. They educate patients and caregivers discover the right treatment protocols that could be helpful on the treatment journey. They regularly track and monitor the patient's treatment journey, to observe and suggest if new treatment protocols are relevant.
